Student at Christ University, Bangalore  
Bengaluru, Karnataka, India

## Summary

I am a passionate and driven computer engineering student with expertise in coding, artificial intelligence, and the Internet of Things (IoT). As a quick learner, I thrive on challenges and constantly seek opportunities to enhance my skills and knowledge. I have a strong foundation in various programming languages and enjoy leveraging my expertise to develop innovative solutions. Currently pursuing my degree, I am actively seeking exciting internships and skill enhancement courses to further expand my practical experience. With a keen interest in emerging technologies, I am always eager to contribute to cutting-edge projects and collaborate with like-minded professionals. Let's connect and explore opportunities to make a positive impact together.

## Experience

The Sparks Foundation

FUNCTION IOT AND COMPUTER VISION

January 2024 - Present (1 month)

Singapore, Singapore

As an intern in IoT and computer vision, my role encompasses diverse tasks crucial to both fields. In the realm of IoT, I engage in sensor integration, configuring devices, implementing communication protocols, and enhancing security measures. Cloud integration is a focal point, bridging IoT devices with cloud platforms for efficient data storage and analysis.

In computer vision, I delve into image and video processing, honing skills in object recognition, and integrating machine learning models for real-time applications. Projects extend into 3D vision and augmented reality, involving depth sensing and application development. Collaboration with cross-functional teams is integral, and I actively contribute to project planning, execution, and documentation. This internship provides a dynamic learning environment, where I not only gain hands-on experience but also contribute to the forefront of innovation in interconnected systems and visual intelligence.

Bharat Intern  
Data Science Intern  
December 2023 - Present (2 months)
